Welcome to the 9th Annual Alberta Health and Safety Conference and Trade Fair.

On behalf of the conference organizing committee, I am pleased to welcome our sponsors, delegates and trade fair exhibitors to the 2010 conference.

The past two years have been a roller coaster of ups and downs, both in the economy and in health and safety. Our workplaces keep changing and so do the demands on health and safety professionals.

In keeping with the theme of the conference, we have a technical stream on driving safety. In addition, there are many other diverse topics, including communication strategies, due diligence and health and wellness. Our keynote panel will focus on the changing face of the Alberta workplace. As well, we have over 120 exhibitors in our trade fair. We hope you will visit their booths to learn more about the products and services they offer. This year, for the first time, we will challenge our delegates at a fun run/walk with the proceeds donated to Threads of Life, a charity that helps support families who have suffered as a result of a workplace fatality, life-altering injury, or occupational illness.

A big thank you to all of our sponsors, volunteers and the conference organizing committee for all of their hard work. I hope that this year's conference will educate and inspire you on ways we can make our workplaces healthier and safer.

Best regards,

Diane Radnoff, P.Eng., M.Eng., CIH
President
Health & Safety Conference Society of Alberta

Message from the Honourable Ed Stelmach, Premier of Alberta

On behalf of the Government of Alberta, it is my pleasure to welcome everyone to the 2010 Alberta Health & Safety Conference and Trade Fair in Edmonton.

The theme of your 2010 Conference, "Workplaces on the Move", could not be more appropriate. New realities like a global recession, volatile energy prices, increased competition from other Canadian and U.S. jurisdictions, and advances in technology are creating changes in the workplace. One of my government's goals is to keep Alberta competitive through these changes while ensuring that our great province will continue to be a safe place to live, work and raise families.

As professionals in the field, you recognize that effective health and safety measures give us a competitive advantage. Hard-working Albertans expect to go home safely to their families at the end of each work day. To attract and retain the skilled workers we need to build our economy, we must meet this expectation.

My thanks to the Health and Safety Conference Society of Alberta for their ongoing commitment to realizing that goal. The conference helps foster a culture of safety and good health throughout the province. I am confident that by working together we can meet our challenges and continue to make Alberta the very best place to live and work.

Best wishes for a successful and memorable conference.

Ed Stelmach

Greetings from the Honourable Thomas A. Lukaszuk, Minister of Employment & Immigration

Welcome to the 9th Annual Alberta Health and Safety Conference and Trade Fair!

This year's conference theme, "Workplaces on the Move", looks at some of the challenges we face in today's fast-paced workplaces. People have more work to do, but less time in which to do it. And while some people are travelling longer distances to work, others are staying closer to home as virtual offices and telecommuting become viable options. It's our job as health and safety professionals to see that those people stay well and get home safely at the end of the work day.

In the last year, we've made good progress toward reducing job-related illness and injury. The provincial lost-time claim rate for 2009 was 1.69 per 100 full-time jobs, down almost 10 per cent from the previous year. Occupational fatalities were also down, from 166 in 2008 to 110 in 2009. These numbers show promise, but we can do better – and we will!

I encourage you to take some of the ideas from the conference and apply them to your companies, organizations and workplaces. Together we can keep our workplaces moving safely.

Best wishes,

Thomas A. Lukaszuk
Minister of Employment and Immigration
MLA, Edmonton-Castle Downs

Message from His Worship, Mayor Stephen Mandel

On behalf of City Council and the people of Edmonton, Alberta's Capital City, I extend a warm welcome to everyone attending the 9th Annual Alberta Health & Safety Conference and Trade Fair. Edmonton is proud to be the host city for this important conference.

Health and safety methods are constantly being reviewed and improved, which is why this conference and trade show is so valuable. This year's conference theme, *Workplaces On the Move*, will provide the opportunity to explore some of the new health and safety issues faced in today's workplaces and examine ways to meet these challenges.

Thank you to the conference organizers who have worked hard to put together a timely and thought-provoking agenda. For individuals who are visiting Edmonton, I hope you have an opportunity to take in some of the many exciting sites our city has to offer. From bustling entertainment districts to the picturesque river valley, our city has a lot for you to see and do.

Best wishes for a successful conference and a pleasant stay in Edmonton!

Yours truly,

A handwritten signature in black ink that reads "Stephen Mandel".

Stephen Mandel
Mayor

On behalf of the Workers' Compensation Board – Alberta, I would like to welcome you to the 9th Annual Alberta Health & Safety Conference and Trade Fair.

Year after year you've proven that safety is a priority. As we enter a new decade, we face new challenges, and events like this one become increasingly important – not only as learning venues, but as places to share ideas and best practices.

Employers and workers alike are finding new ways to make safety a priority in an ever-expanding and changing definition of a workplace. It is becoming commonplace for your employees or coworkers to work from the next cubicle, office, city or even province. All of these factors present unique safety challenges I am confident we can all manage together.

By continuing to share and learn together, we are ensuring that Alberta remains in the future what it is today – a safe, healthy and strong place to work.

Thank you for participating in this year's conference, and congratulations to the Society for putting together a great health and safety event.

Sincerely,

A handwritten signature in black ink that reads "Guy R. Kerr".

Guy R. Kerr
President & CEO
Workers' Compensation Board - Alberta

The 9th Annual Alberta Health & Safety Conference and Trade Fair could not be possible without the continued support of the many companies who have graciously sponsored the event. Our sponsors are key in providing a successful annual conference and we appreciate them tremendously.

Day 1 - Monday, November 8

11:00 am	Delegate Registration Begins <i>(delegates on their own for lunch)</i>
1:00 pm—2:45 pm	Opening Ceremonies and Keynote Address Michael Pinball Clemons <i>All Heart</i>
3:00 pm—4:00 pm	Educational Sessions 102 —Dealing with Substance Abuse in the Workplace: "It's Our Business" 103 —First Aid and the Transportation of Casualties 104 —Responding to the Media Regarding On-Site Incidents 105 —Alberta Traffic Safety Plan: Saving Lives on Alberta's Roads
4:00 pm—6:00 pm	Welcome Reception in Trade Fair Area

2

Day 2 - Tuesday, November 9

8:00 am—8:30 am	Delegate Check In and Coffee in Trade Fair Area
8:30 am—10:00 am	Blockbuster Sessions 201 — Brian Caruk — <i>The Evolution of Due Diligence</i> 202 — Rod Davis — <i>Collisions - Loss vs. Opportunity</i>
All Day Workshop	203 — <i>Alberta's Best Practice for Building and Working Safely on Ice Covers</i>
10:00 am—10:30 am	Coffee Break in Trade Fair Area
10:30 am—11:30 am	Educational Sessions 204 — <i>Coconuts or Sharks...Common Errors in Risk Perception and Decision Making</i> 205 — <i>But It's Just Sand...</i> 206 — <i>Zombie Walkers: Are You Working Among the Living Dead?</i> 207 — <i>The Road More Travelled</i>
11:30 am—1:00 pm	Lunch in Trade Fair Area
1:00 pm—2:30 pm	Keynote Panel Discussion <i>The Changing Face of the Workplace</i>
2:30 pm—3:00 pm	Coffee Break in Trade Fair Area
3:00 pm—4:00 pm	Educational Sessions 209 — <i>Crossing Borders: Is Your Company Compliant with OH&S Legislation in BC, Alberta and Saskatchewan?</i> 210 — <i>Cholesterol and Heart Health Programs in the Workplace</i> 211 — <i>SOMEDAY is Not a Day of the Week: Step-wise Strategies for Living in the Present</i> 212 — <i>Driving for Work: Safe Practices for Employers and Workers</i>

3

Day 3 - Wednesday, November 10

7:30 am—8:00 am	Delegate Check In and Coffee in Trade Fair Area
8:00 am—9:30 am	Blockbuster Sessions 301 — Dr. Gord Giesbrecht — <i>Baby It's Cold Outside: Surviving Cold Water Immersion</i> 302 — Valerie Cade — <i>How to Build Trust with People You Don't Understand, Don't Connect With, but Still Have to Work With!</i>
9:30 am—10:00 am	Coffee Break in Trade Fair Area
10:00 am—11:00 am	Educational Sessions 303 — <i>Respect In The Workplace</i> 304 — <i>Investing In Health & Safety</i> 305 — <i>On-site OH&S Investigations</i> 306 — <i>Mentoring Company Drivers</i>
11:00 am—12:00 pm	Lunch in Trade Fair Area
12:15 pm	Trade Fair Closes
12:00 pm—1:00 pm	Educational Sessions 307 — <i>Courageous Dialogue</i> 308 — <i>Practical Applications for Biohazard Containment</i> 309 — <i>Partnerships News!</i> 310 — <i>Driven to Distraction</i>
1:15 pm—3:00 pm	Closing and Keynote Address Meg Soper <i>Get Connected and Stay Plugged In</i>
	Grand Prize Draw <i>Sponsored by Christensen & McLean Roofing Co.</i>

PROFESSIONAL DEVELOPMENT COURSES — Westin Edmonton

November 5th, 6th & 7th	PDC-01 — 8:00 am—5:00 pm daily <i>CSP Exam Preparation Course</i> <i>(3-day course)</i>	<i>hosted by</i> Canadian Society of Safety Engineering, Edmonton Chapter
November 6th & 7th	PDC-02 — 8:00 am—5:00 pm daily <i>Measurement & Evaluation in OHS Managed Systems</i> <i>(2-Day Course)</i>	<i>hosted by</i> Canadian Society of Safety Engineering, Edmonton Chapter

ALL HEART

It is impossible to overstate just how dynamic, how energizing Michael Clemons is on stage. Contrasting boundless “pinball”-like energy with moments of quiet dignity, he engages audience members, literally, to deliver an unforgettable, often emotional speech. One of the most in-demand speakers in Canada, he talks with unabashed passion about teamwork, about the potential in each of us to achieve anything we set our minds to, and about putting your heart -- fully -- into everything you do.

Speaker

Michael Pinball Clemons

EDUCATIONAL SESSIONS

3:00 pm - 4:00 pm

Session #: 102 | Salon 4

DEALING WITH SUBSTANCE ABUSE IN THE WORKPLACE: “IT’S OUR BUSINESS”

Alcohol, tobacco and illicit drug use costs the Alberta economy an estimated \$4.4 billion per year in healthcare expenses, law enforcement costs and productivity losses. It also costs lives. If left untreated, substance use and gambling problems in the workplace contribute to:

- unsafe work practices, accidents and increased risk of injury
- depression, stress, reduced morale and other emotional problems
- increased absenteeism, higher workers’ compensation and insurance costs
- alcohol- and drug-related illness

Session #: 102 - continued

Preventing and reducing the harms associated with alcohol, other drugs and gambling in the workplace requires mutual understanding and problem solving with employers and employees working together.

Speaker

Ron Beach, Alberta Health Services

Session #: 103 | Salon 3

FIRST AID AND THE TRANSPORTATION OF CASUALTIES

This presentation will focus on the changes in the OH&S regulations regarding transportation of casualties from a work site. Emergency Response Plans require information on when First Aiders should transport casualties themselves or wait for the ambulance service. This session reviews factors to consider in making these decisions.

Speaker

Kolby Walters, St. John Ambulance

Session #: 104 | Salon 2

RESPONDING TO THE MEDIA REGARDING ON-SITE INCIDENTS

Moments after you take a call on your cell phone from a member of your team who tells you about an incident that has badly injured one of your workers on the job, your office phone rings and it’s somebody from the news media who wants to talk to you about it. What do you say? How do you handle the situation? How do you keep your cool?

Find out the answers to these questions and many more in a session led by Grant Ainsley, who spent 15 years in the media and now presents media training sessions for organizations across Canada.

Speaker

Grant Ainsley, Grant Ainsley Inc.

EDUCATIONAL SESSIONS*continued***3:00 pm - 4:00 pm****Session #: 105 | Salon 5****ALBERTA'S TRAFFIC SAFETY PLAN: SAVING LIVES ON ALBERTA'S ROADS**

The Alberta Traffic Safety Plan: Saving Lives on Alberta's Roads (Traffic Safety Plan) is a comprehensive strategy designed to reduce traffic-related deaths and injuries in the province. It outlines key initiatives to help prevent motor vehicle collisions, build safer roads, establish and enforce traffic laws, and better educate all Albertans about traffic safety. This presentation will provide information on the implementation of the Alberta Traffic Safety Plan and the Community Mobilization Strategy. The presentation will also include additional traffic safety information and available resources pertinent to health and safety professionals.

Speaker

Dale Friedel, Office of Traffic Safety & ACICR**WELCOME RECEPTION AND
GRAND OPENING OF TRADE FAIR****4:00 pm - 6:00 pm**

We invite you to join us at the Welcome Reception hosted by the 2010 Trade Fair Exhibitors. Food and beverages will be available while you take some time to tour the exhibit booths and get a sneak peek at the latest and greatest products and services in the workplace health, safety and environment industries.

Admission to this event is included with your full conference registration.

Hosted by the 2010 Exhibitors**8:00 am - 8:30 am****DELEGATE CHECK-IN AND
COFFEE IN TRADE FAIR****8:30 am - 10:00 am****BLOCKBUSTER SESSIONS****Session #: 201 | Salon 8****THE EVOLUTION OF DUE DILIGENCE**

In the aftermath of recent court decisions, foreseeability has become a more significant consideration in the law of due diligence. Hear what factors are taken into account by crown prosecutors when recommending charges, and when assessing their cases up to, and including, trial. This session will touch upon the important aspects of a health & safety program for due diligence purposes and common misconceptions of what constitutes due diligence.

Speaker:

Brian Caruk, Alberta Justice**Session #: 202 | Salon 9****COLLISIONS - LOSS VS. OPPORTUNITY*****Collision Investigation Results Can Improve Corporate Transportation Systems***

Mr. R.O. (Rod) Davis, a retired law enforcement officer of 32 years and widely recognized expert in the area of collision investigation/reconstruction and training, will present valuable insights into collision investigations, case management, event data records and similar supporting technologies as well as legal issues associated with collisions.

...continued over

Session #: 202 - continued

In addition he will provide recommendations for companies to improve their transportation safety systems in an effort to guard against repeat occurrences and improve safety for both the employees and the organization.

Small and large companies across Canada play an incredibly important role in the effort to reduce motor vehicle-related crashes, resulting in injuries and fatalities annually. In the field of corporate transportation safety, very little can be achieved in the absence of a structured and efficient corporate transportation safety system that utilizes company policies, procedures and administrative systems.

In these challenging economic times, it's more important than ever to create and foster strong positive relationships with all employees who operate company vehicles regardless of the fleet size, vehicle classification or the number of vehicle operators. This session will feature information and provide opportunities for discussion on accessing, constructing and managing a safe and effective corporate transportation program in a cost effective manner.

Speaker:

Rod Davis, The Viscount Group Inc.

COFFEE BREAK IN TRADE FAIR AREA

10:00 am - 10:30 am

EDUCATIONAL SESSIONS

10:30 am - 11:30 am

Session #: 204 | Salon 8

COCONUTS OR SHARKS...COMMON ERRORS IN RISK PERCEPTION AND DECISION MAKING

Falling coconuts or shark attacks... Which presents the greatest risk and how does this apply to errors in safety risk perception and decision-making? Learn how to recognize and avoid costly errors in risk perception and decision-making, including human error and at-risk employee behaviour.

Speakers:

Corinne Gediman & Rod Knox, Proactive Safety Performance

Session #: 205 | Salon 3

BUT IT'S JUST SAND...

Silica is one of the most common substances found in most mineral deposits in the world. It is also found in a wide variety of products. The crystalline forms of silica can be very hazardous to health. When inhaled into the lungs, this substance can cause a number of health problems, including silicosis, lung cancer, chronic obstructive pulmonary disease and emphysema. As a result, in 2009, Alberta lowered the Occupational Exposure Limits for crystalline silica. This session will discuss the health effects from exposure to crystalline silica, the basis for the new Occupational Exposure Limit as well as challenges faced by workplaces in complying with the new exposure limit.

Speaker:

Diane Radnoff, Alberta Employment & Immigration

Session #: 206 | Salon 9

ZOMBIE WALKERS: ARE YOU WORKING AMONG THE LIVING DEAD?

The world is full of zombie walkers. You probably know or work with a few. These are the people that park in the exact parking spot every day. They have the same thing for lunch every day. When they get home from work, they don't actually remember driving there.

These are the same kinds of employees that cause your OSHA recordable chart to look like the ascent of Everest. These are the ones walking through the facility with their safety glasses on their foreheads and their respirators around their neck.

All this said, change is possible...but it requires change on your part first. You cannot continue to roll out the same safety programs, the same policies, the same posters, the same boring training programs and expect anything but what you continue to get.

This seminar will demonstrate some creative programs, activities, incentives, and concepts that have been initiated by EH&S professionals from companies in a variety of industries throughout the country. We will also welcome any ideas that you may be able to bring to the seminar.

Speaker:

Steve Laughlin, CJ&K Training Services

EDUCATIONAL SESSIONS*continued***10:30 am - 11:30 am****Session #: 207 | Salon 4****THE ROAD MORE TRAVELLED**

With many organizations doing projects in both Calgary and Edmonton, Albertans spend a great deal of our working time on the road driving from place to place, meeting to meeting. Highway 2 sees hundreds of vehicles per day, but what are the hazards on the highway when we get behind the wheel? This presentation will discuss the most common types of vehicle accidents and incidents that occur, when they happen and why they occur.

Speaker:

Rick Gardner, Alberta Sheriff's Department**LUNCH IN TRADE FAIR AREA****11:30 am - 1:00 pm****KEYNOTE PANEL
DISCUSSION****1:00 pm - 2:30 pm****Hall C****THE CHANGING FACE OF THE WORKPLACE**

The workplace of 2010 is very different from the one our parents experienced and even the one we may have starting working in. More and more employers are reevaluating how they work; providing flexible hours or non-traditional workshift, job sharing, increased use of technology and even promoting working from home. Workers are working a variety of workshifts, travelling more (or less) and interacting with their fellow workers less. This session will explore the advantages and challenges to these changes and also how the occupational health and safety legislation applies to this evolving workplace.

Panelists:

Mark Greene, Alberta Justice**Garth Rattray, International Union of Painters and Allied Trades****Lorne Kleppe, Manufacturers' Health & Safety Association****2:30 pm - 3:00 pm****COFFEE BREAK IN TRADE FAIR AREA****3:00 pm - 4:00 pm****EDUCATIONAL SESSIONS****Session #: 209 | Salon 9****CROSSING BORDERS: IS YOUR COMPANY COMPLIANT WITH OH&S
LEGISLATION IN BC, ALBERTA AND SASKATCHEWAN?**

Workplaces on the move are dynamic, challenging and often very rewarding. An organization's operations can grow and extend across provincial or territorial borders across Canada, and even develop into new kinds of work. But it's important to look before you leap. Repeating a business model in a new jurisdiction must be associated with an appreciation that your existing health and safety program will almost certainly not comply with the laws of the new province or territory. Some work is provincially regulated and other work is federally regulated, and identifying which applies can be challenging.

The first step in any successful health and safety program is an understanding of the location and nature of your work. This is the only way to identify what laws apply. Once that critical question is answered, your organization must assess what roles it is playing at its work places and what duties flow from those roles. Do you know which jurisdictions identify a role for a prime contractor, and which do not? Do you know which jurisdictions identify specific responsibility for a supervisor or a contractor?

Among other objectives, this talk will assist owners and employers in understanding contracting responsibilities and how they differ significantly under the occupational health and safety laws of each province, and under the federal laws.

You may be surprised what responsibilities your organization carries and will almost certainly leave this session with an action plan to ensure health and safety excellence wherever you work.

Speakers:

Jennifer Miller, Bennett Jones**Lloyd Harmon, Enform**

EDUCATIONAL SESSIONS

3:00 pm - 4:00 pm

continued

Session #: 210 | Salon 3

CHOLESTEROL AND HEART HEALTH PROGRAMS IN THE WORKPLACE

This presentation outlines the basic health effects of cholesterol, fibre, fats, nutrition and related predictors of heart health. A brief overview of a lipid profile and how cholesterol affects the body will be presented. Followed by what changes workers can make to improve their heart risk factors and reduce their risk of heart attacks or strokes. The final topic will be what organizations can do to assist workers in reducing their risk of heart disease and how health promotion programs can be effective.

Speaker:

Eric Stein, Canadian Occupational Resource Consultants

Session #: 211 | Salon 8

SOMEDAY IS NOT A DAY OF THE WEEK: STEP-WISE STRATEGIES FOR LIVING IN THE PRESENT

Someday is a very busy day for many of us. If you regularly think about your goals and plans but rarely get to them maybe it's time to ask yourself WHY? When the day-to-day schedule gets chaotic and life becomes more about keeping up than it does about moving ahead we put off enjoyable activities, we delay self-care, and procrastination becomes the norm rather than the exception. What have you been putting off lately? What would help you get to it?

In this enlightening and humorous session Michelle helps you get over the guilt, get to the good things, and live a bigger life. Step away from delay and move your dreams and goals from someday to TODAY.

Speaker:

Michelle Cederberg, Live Out Loud Inc.

Session #: 212 | Salon 4

DRIVING FOR WORK: SAFE PRACTICES FOR EMPLOYERS AND WORKERS

In Alberta, someone dies in a traffic incident almost every day and several more are injured. The Road Safety at Work initiative and the Traffic Safety Plan are working to reduce these numbers through this best practice resource. It will help employers and workers understand their requirements to stay safe while driving for work.

Speakers:

NO LONGER SKATING ON THIN ICE: Using The Best Practice For Building And Working Safely On Ice Covers In Alberta

Most Albertans at one time or another have looked over a frozen stream, river or lake and asked themselves: Is it safe to cross?

For the snowmobiler, skier, and driver, a quick decision is usually made by weighing risks against benefits. For an employer with heavy equipment, a quick decision weighing the risks against the benefits is liable to get one of his workers in trouble. Recognizing that there were limited resources available for employers and employees making these decisions, Alberta Employment and Immigration worked with a stakeholder committee to produce Alberta's Best Practice for Building and Working Safely on Ice Covers. The Best Practice provides employers and employees with the information and a risk management process to help them make good decisions when considering work on river and lake ice.

The workshop will go through the hazard assessment, elimination and control process adapted for floating ice covers. It will highlight some of the most common hazards associated with ice covers such as ice types, cracks and local conditions. Effective practices for either eliminating or controlling the ice hazards will also be discussed. The workshop will reinforce the learning with examples from typical projects and work through the hazard process for an ice cover scenario.

At the conclusion participants should be able to understand how and when to use the Best Practice and where to go for further information.

Dr. Proskin leads EBA's practice in ice cover engineering and works closely with his geophysical colleagues in using ground penetrating radar for assessing ice cover conditions. He has 11 years experience in advising oil and gas, mining and construction clients on the safe use of ice roads, ice platforms, and winter roads. His projects include the 350 km long Tibbitt to Contwoyto Winter Road that carried 120,000 tonnes in 2009/2010 winter road season.

He was a technical consultant on the development of Alberta's Best Practice for Building and Working Safely on Ice Covers and is part of the technical team developing the Best Practice for Winter Roads for Transportation Association of Canada.

Speaker:

Samuel A. Proskin, Ph.D., P.Eng.

EBA Engineering Consultants Ltd., Senior Project Engineer

1:00 pm to 3:30 pm

FULL DAY WORKSHOP AFTERNOON

Session #: 203 | Salon 2

HOW TO KEEP YOUR NATURAL INSTINCT FROM KILLING YOU: ICE WATER IMMERSION, RESCUE AND VEHICLE ESCAPE

Expect a full two and a half hours of lifesaving education and entertainment.

We will explode some myths that have resulted in many preventable deaths. This seminar will directly benefit attendees in three possible areas: they might become victims themselves; they might need to provide aid to a victim in their work activities; they might educate others regarding some of these issues. Therefore, the seminar could save your life, and the lives of others.

During the afternoon we will learn the Three Phases of Cold Water Immersion and learn the 1-10-1 Principle (you have 1 minute to control your breathing, 10 minutes of meaningful movement, and 1 hour before becoming unconscious due to hypothermia). We will review the kick-and-pull method to use if you break through the ice.

Vehicle submersions have the highest mortality rate of any type of single-vehicle accident. We will learn that you should forget about using windows and your cell phone. Rather, remember these four words: Seatbelts, Children, Windows, Out.

Finally we will review the contents of our DVD production "The Cold Hard Facts of Winter Roads Safety".

Speaker:

Dr. Gordon Giesbrecht, Cold Water Specialist, University of Manitoba

DELEGATE CHECK-IN AND COFFEE IN TRADE FAIR AREA

BABY IT'S COLD OUTSIDE: SURVIVING COLD WATER IMMERSION

Dr. Gordon Giesbrecht is a professor of thermophysiology at the University of Manitoba in Winnipeg where he runs the Laboratory for Exercise and Environmental Medicine, and studies human responses to exercise and work in extreme environments. Gordon combines practical experiences as a wilderness instructor with 20 years of human cold research, conducting hundreds of lab and field trials which have led to the publication of more than 100 articles about cold physiology and pre-hospital care for human hypothermia. Dr. Giesbrecht will take our delegates through the various phases of Cold Water Immersion in order to effectively communicate his message of survival in the most harsh and unforgiving of water conditions.

Speaker:

Dr. Gordon Giesbrecht, University of Manitoba

Session #: 302 | Salon 8

ESPECIALLY FOR WORKPLACES ON THE MOVE: "How To Build Trust With People You Don't Understand, Don't Connect With, But Still Have To Work With!"

If you were to ask safety employees what they could change about where they work, 90% would mention an inter-personal situation that they've spent far too much time thinking about!

Session #: 302 - continued

Furthermore, they would add: "And I am not sure what to do about it either!" And yet, you still have to inspire safety!

This inspirational session will help safety professionals want to 'work through anything with anyone'! This session helps to remove defensiveness with understanding through humour, relevant examples and creates the ability for participants at all levels to be able to approach others with ease. You will be able to narrow the inter-personal gaps between co-workers and figure out 'why do they do what they do' in order to create a respectful workplace for all. Bottom line: You will be able to influence safety with ease!

Speaker:

10:00 am - 11:00 am

EDUCATIONAL SESSIONS

Session #: 303 | Salon 9

RESPECT IN THE WORKPLACE

Respect in the Workplace has many different faces. The most frequent occurrences of disrespect in the workplace are: defamation, harassment and bullying. Disrespect is personal. Disrespect hurts.

Speaker:

Bruce Kent, Respect Group Inc.

EDUCATIONAL SESSIONS*continued***10:00 am - 11:00 am****Session #: 304 | Salon 4****INVESTING IN HEALTH & SAFETY**

Health and safety initiatives often stall at the concept stage. A strong business case can make the difference between ideas and implementation. Learn from WCB's experience, from working with many employers in many industries, on diverse initiatives on building effective business cases to promote your prevention and disability management programs. The session will profile financial considerations including impact on WCB premiums.

Speaker:

Ken Vertz, Workers' Compensation Board of Alberta**Session #: 305 | Salon 8****OH&S INVESTIGATION PROCESS**

Participants in this session will get an overview of the investigation process that is typically conducted by OH&S when they respond to a serious incident or a fatality. The session will be given by Casey Leahey, a Lead investigator with OH&S who has been with the department for 14 years.

Initially trained in power engineering, Casey has a background in the fire service and the news media; in addition Casey worked as a health and safety officer in both the pulp & paper and health care industries before joining OH&S. Casey was the lead investigator on a file where both criminal and regulatory charges were initiated as a result of an incident that took place 10 years ago, long before Bill C- 45 was proclaimed into law. Come and hear this session which will offer participants an interesting perspective.

Speaker:

Casey Leahey, Alberta Employment & Immigration**10:00 am - 11:00 am****EDUCATIONAL SESSIONS***continued***Session #: 306 | Salon 5****MENTORING COMPANY DRIVERS**

This informative presentation will explain why it is so important for organizations to have some type of driver mentoring program in place. The session will address how to approach mentoring new company drivers.

Mentoring Company Drivers will also include how to pick the proper people in your organization to mentor your company drivers. The presentation will cover what to look for when choosing a mentor, as well as the types of skills and qualifications someone mentoring a company driver should have.

The presentation will also give suggestions on what tools an organization can use to assist the mentor and help make the mentorship program successful.

Speaker:

Ron Wilson, Alberta Motor Association**11:00 am - Noon****LUNCH IN TRADE FAIR AREA****Noon - 1:00 pm****EDUCATIONAL SESSIONS****Session #: 307 | Salon 8****COURAGEOUS DIALOGUE**

How many times have you cringed at the thought of having to confront a person's difficult behaviours? Wondered if you avoid the person the situation would improve? Pass the situation along to someone else? Drop hints and hope they read between the lines?

...continued over

EDUCATIONAL SESSIONS*continued***Noon - 1:00 pm***Session #: 307 - continued*

Dealing with people can often be the most challenging aspect of work and being on teams. The reality is we don't always see eye to eye with everyone and dealing with difficult situations and behaviours is uncomfortable for many. Success at difficult conversations begins with a willingness to pursue the courageous dialogue, courageous dialogue techniques, and a model to shift from conflict to a conversation. When communication is effective and timely, safety in the workplace is maximized.

Discover five tools for courageous dialogue, including a courageous dialogue model, five keys to dealing with difficult people and the VALUE method of communication to respond with skill and confidence.

Speaker:

Charmaine Hammond, Hammond International Inc.**Session #: 308 | Salon 5****PRACTICAL APPLICATIONS FOR BIOHAZARD CONTAINMENT**

This session will review the importance and value of biocontainment activities and review the principles of biocontainment zoning. We will also discuss the steps involved in planning work on infected premises and the safety considerations for working in a biohazard contaminated environment.

Factors affecting selection and use of Personal Protective Equipment will be reviewed.

Speaker:

Craig Houghton**Noon - 1:00 pm****EDUCATIONAL SESSIONS***continued***Session #: 309 | Salon 3****PARTNERSHIPS NEWS!**

Partnerships is a non-regulatory, province-wide prevention program sponsored co-operatively by government, labour, and industry. Together we encourage and assist employers with the implementation of health and safety management systems at their work sites.

Partnerships use a strategic approach to program development in an effort to meet the emerging needs of industry and government. Through this process, and consultation with stakeholders, feedback has been provided toward program direction.

This session will provide an overview of the Partnerships program, and an update of new initiatives.

Speaker:

Rob Feagan, Alberta Employment & Immigration**Session #: 310 | Salon 9****DRIVEN TO DISTRACTION**

Evolving technology, from CD players to infotainment systems, presents many distracting temptations to drivers.

These are in addition to the traditional distractions of talking to passengers, eating and drinking or simply daydreaming about an upcoming event. This talk will examine why drivers engage in such activities, how they can lead to crashes, the most frequent and the most risky distractions in which drivers engage, the effects of distraction on driver behaviour and potential countermeasures to reduce crashes resulting from distraction.

Speaker:

Allison Smiley, Human Factors North Inc.

CLOSING KEYNOTES

1:15 pm - 3:00 pm

Hall C

GET CONNECTED AND STAY PLUGGED IN

This lighthearted interactive presentation focuses on effective communication, conflict management and dealing with difficult people. Develop strategies to enhance relationships on both a personal and professional level. Through laughter and interactive energy people will come away with a better understanding of each other's challenges and unique qualities. You will leave armed with practical strategies geared towards a healthier, happier and more productive workplace environment.

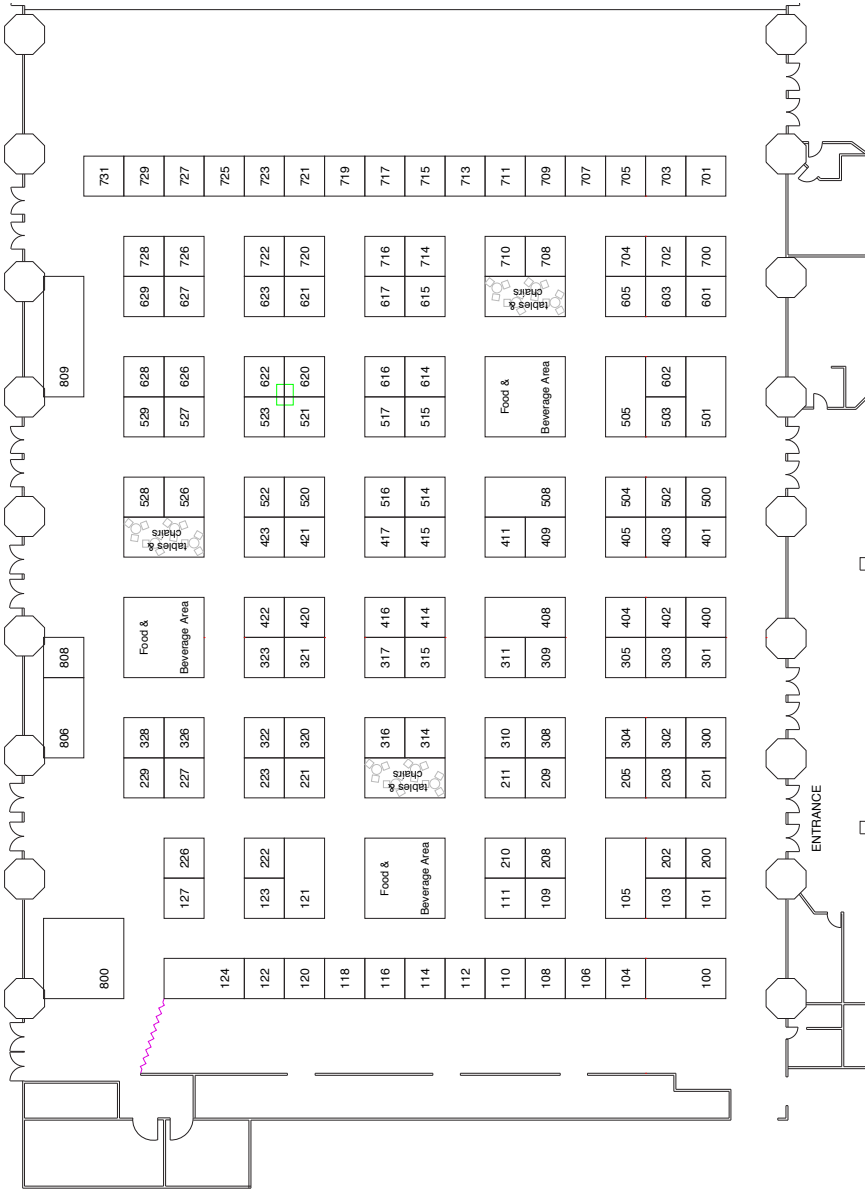

Speaker:
Meg Soper

Bring your completed Conference Evaluation Form to the Closing Ceremonies and be entered for the

Fun Run and Walk

Thank You...

to all of those who participated in the
1st Annual Fun Run & Walk.

Proceeds will be donated to Threads of Life, an organization whose mission is to help families heal through a community of support and promote the elimination of life-altering workplace injuries, illnesses and deaths.

sponsored by 3M Canada and the Running Room

The following Restaurants offer Special Discounts to all Attendees and Exhibitors for the duration of the 2010 Conference:

Elephant and Castle British Pub and Restaurant

Enjoy 15% off regular food purchases (excluding alcohol) for all delegates displaying their badge during the conference dates. Come and take part in our friendly and relaxed non-smoking atmosphere where all ages are welcome to enjoy our great menu that features authentic

British Classics and North American favourites. At E&C, we can accommodate groups of any size – ask us about our private “snug room” that’s great for business meetings or private functions for groups of up to 25 people.

Unit G 310, Edmonton City Center
Ph: 780-424-4555

It's All Greek to Me

Enjoy 10% off menu items for all delegates displaying their badge at the restaurant during the conference dates. Its All Greek To Me is a family owned restaurant that has been in Edmonton for over 12 years. It offers a cozy atmosphere that is perfect for lunch or dinner with friends and family. The home cooking has successfully made this restaurant

a favorite among many in the city. The chef is a graduate from the Culinary Arts School in Greece and brings with him over 15 years of experience cooking on the Greek islands. He combines traditional cooking with innovative recipes, the result is a healthy fusion of old and new that brings you the authentic tastes of the Greek Islands.

10127-100A Street

Ph: 780-425-2073

Ruth's Chris Steak House

Dinner Specials: Sunday Prime Rib special for \$19; Wednesday dinner special – 2 for \$99 – includes choice of appetizer, entrée, dessert and two glasses of wine. Built in a Heritage Building that was once a bank, Ruth's Chris Steak House offers private dining in former bank

vaults and fireplaces throughout their spacious, cozy dining room, creating a relaxing setting - ideal for business, fine dining or an incredible meal before an event.

Special Invite for Alberta Health and Safety Conference Delegates - Tuesday, Nov. 9

Please join us at the **LUX Lounge** between 4pm-7pm on **Tuesday November 9, 2010** to receive a complimentary cocktail and light tray passed appetizers.

Exhibitor/Delegate badge required

limited capacity - based on availability

Edmonton's Century Hospitality Group has "raised the steaks" with the unveiling of LUX Steakhouse + Bar. Located at the heart of downtown, diners at the upscale urban steakhouse enjoy a hip, refined design, and a menu that would do any traditional steakhouse proud. The atmosphere is pure modern day elegance with its vibrant colours, rich fabrics, darkly stained woods, and crisp solid ceilings.

Commerce Place – 10150 – 101 Street

Ph: 780-424-0400

That's Aroma! Italian Kitchen

Enjoy one complimentary dinner entrée/pasta when a second dinner entrée/pasta of equal or greater value is purchased up to a value of \$15. Valid for dinner only – dine in only – not valid with other special offers, discounts or on holidays.

Newly renovated That's Aroma! Italian Kitchen brings a warm energy and polished Italian experience to downtown Edmonton. Its new look is a seamless blend of old-world

charm and modern lustre – offering a fresh new take on the old country. Chef Gonzalo Proano has designed a tantalizing trattoria-style Italian menu that draws from traditional, rustic home-style Italian cooking, with a focus on shared appetizer platters, exquisite pasta and entrees.

11010 – 101 Street – Hys Centre
