

Working Alone Presentation Handout

- ✓ *The very nature of Working Alone is a Hazard that must be controlled.*
- ✓ *Clear regulatory requirements/codes exist that detail employer responsibilities, including for Working Alone. (Part 28 - Ab OH&S Codes)*
- ✓ *Among other things, employers must provide a system of regular contact when an employee is working alone, no matter how often this may occur.*
- ✓ *A comprehensive technology-based solution is the best method of ensuring this hazard is fully addressed, ensuring compliance and most of all, employee safety!*

Alberta Occupational Health and Safety Code:

Part 28: Working Alone

<https://search-ohs-laws.alberta.ca/legislation/occupational-health-and-safety-code/part-28-working-alone>

Application

393(1)

(a) a worker is **working alone at a work site**, and

(b) **assistance is not readily available** if there is an emergency, or the worker is injured, or ill.

393(2) working alone is considered a hazard.

Precautions required.

394(1) An employer must, for any worker working alone, provide an **effective communication system** consisting of

(a) radio communication,

(b) landline or cellular telephone communication, or

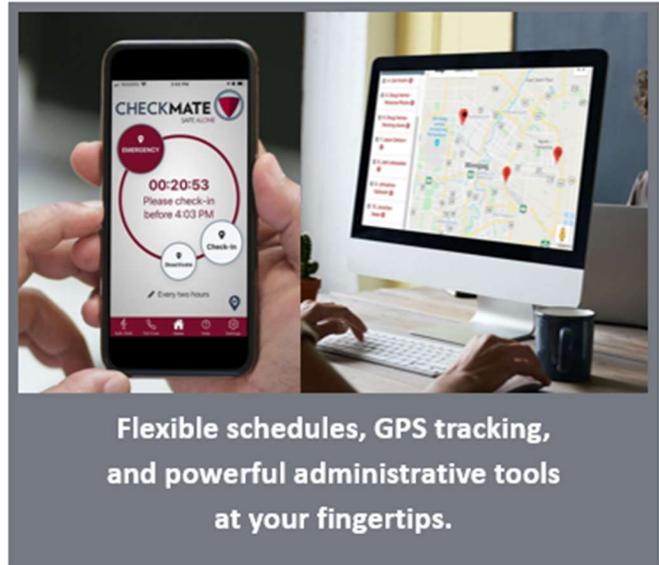

(c) some other effective means of electronic communication

that includes regular contact by the employer or designate at intervals appropriate to the nature of the hazard associated with the worker's work.

The challenge... How best to control this hazard?

Simple Working Alone Solutions for Alberta Employers
